YOUR GROUP23 PATIENT HEALTH JOURNEY

DIAGNOSIS: PATELLOFEMORAL PAIN SYNDROME

The Problem Spoiler - it's not your actual injury!

Traditional sport medicine attempts to address physical complaints with purely physical treatments. Unfortunately, this care leaves many patients unsatisfied and far from a full and robust recovery.

Why is that?

Patients do not fully understand their diagnosis or what is truly causing their pain and symptoms. In many cases, health care providers fail to provide the appropriate patient education about an injury, the various possible impacts, and treatments.

There is no clear plan or pathway forward. "Fill this prescription and follow up in a few weeks" may seem like a plan, but *it simply is not comprehensive enough* for you to fully commit mentally and emotionally. Where are you going? What's the end goal?

Failure to take an integrated Bio-Psycho-Social-Spiritual approach to care. None of us are the same, and *we don't inhabit a purely physical world.* Our experiences and reactions to injury, pain, and movement restrictions are part of our personal, unique interconnection between biological, psychological, social, and spiritual factors.

Your Rise Above Patient Health Journey

The Group23 solution asks that you:

Become an expert. We believe every patient at Group23 should be able to *understand and explain their diagnosis*. We'll teach and provide information because *the more* you know, *the more* you will understand the treatment plan, and *the better* success you will have.

See your treatment plan as a Journey. Your Health Journey will begin by having you set your Rise Above goal(s). Goals establish a benchmark for measuring the success of treatment interventions and more importantly, they *ensure every treatment decision reflects your priorities*, not ours.

Take an integrated Bio-Psycho-Social-Spiritual approach. You must recognize your injury, pain, and disability aren't *isolated in a physical dimension* of life. Consider your social situations, stressors, and overall mental well being, as it is inevitable your injury or pain will be impacted by other areas of your life - think about how grumpy you get when you can't kick a cold!

Now what?

- ✓ go online and read all about your injury at group23.ca/riseabove. Become an expert!
- ✓ watch our three videos to understand the Journey we're on together
- ✓ set your SMART goals
- ✓ book a Group23 physiotherapy assessment
- ✓ book a Group23 massage appointment

Why do we care about goals?

- ✓ a good goal indicates if you have become an expert, and
 actually understand the implications of your diagnosis
- √a personal goal ensures every treatment decision reflects YOUR priorities, not ours
- ✓ they show when we have arrived at success, which will look different for everyone

Make your Rise Above Goal S.M.A.R.T

Specific | Measurable | Actionable | Realistic | Time Bound

Example: Be able to play competitive soccer three days a week, in 12 months.

- **✓ S**pecific
- ✓ Measurable
- ✓ Actionable
- ✓ Realistic
- **▼** Time Bound

Example: I want to get rid of my pain.

- **S**pecific
- ✓ Measurable
- **X** Actionable
- X Realistic
- X Time Bound

On my Health Journey, my Rise Above Goal(s) are:

- 1
- 2
- 3

Group23 Navigation Toolkit

\bigcirc	Patience
	\square discussion of a realistic recovery timeline (18+ months)
\bigcirc	Activity Modifications
	 □ minimize aggravating activities: squatting, running, lunging □ LOW impact exercise: biking, elliptical, swimming, or lane walking in pool □ learn to listen to your body: if you get pain/swelling after activity, you're not ready for it
\bigcirc	Physiotherapy
	 □ exercise-based physiotherapy, with individualized Group23 program Advanced physical therapies □ AlterG training □ blood flow restriction training □ shockwave therapy
\bigcirc	Massage
	 □ self massage: massage gun, foam roller, lacrosse ball, Tiger Tail □ massage therapy, with individualized Group23 program Alternative muscle pain reduction therapies □ Active Release Therapy (ART) or Graston (chiropractic) □ TENS machine (Transcutaneous Electrical Nerve Stimulation)
\bigcirc	Health & Wellness
	☐ free Group23 health & wellness assessment session

 \square self management or commercial program

Now that we know where we're going, how do we get to **your** SMART goal **destination**?

All the following tools are *options* on your Journey, and tracking results will help us develop your personal treatment plan.

Did it help?	Did it last?

Bracing, Orthotic Supports & Other Gear
\square supportive footwear at ALL TIMES indoors & outdoors ex.
Birkenstocks, HOKA shoes, or indoor runners
\square over the counter orthotics for arch support: Ex. Powerstep,
Bauerfeind, Superfeet, Sole, Kneed etc.
\square Patellar Stabilization Brace:
☐ Bauerfeind GenuTrain series
☐ Med-Spec AKS (hinged)
☐ CoreFlex Knee-O-Trakker
O Pain Management
Icing
\square home icing: 15-20 minutes every hour as needed
\square compression ice machine with knee attachments
\square commercial ice compression wraps ex. Hyperice Ice
Compression Knee Wrap
Prescription topical anti-inflammatory creams
☐ Diclofenac 10% +/- Menthol
☐ Ketoprofen/Pentoxifylline/Cyclobenzaprine +/-
Lido/Menthol
☐ Ketoprofen/Baclofen/Amitriptyline/Lidocaine +/-
Gabapentin
Over the counter pain and swelling control (take as directed by MD)
☐ acetaminophen (Tylenol) – for baseline aching
☐ ibuprofen (Advil/Motrin) – for flares of pain/swelling
□ naproxen (Aleve) – for flares of pain/swelling
Prescription anti-inflammatory medications
□ naproxen/esomeprazole 500/20mg (Vimovo) tablets
☐ diclofenac/misoprostol 50mg/200mcg (Arthrotec) tablets
□ celecoxib (Celebrex) 200mg capsules
Second-line, add on medications & other options
☐ duloxetine (Cymbalta)
☐ nutritional supplement review and discussion
☐ anti-inflammatory diets
☐ CBD products

Regenerative injection therapies at Group23 Regenerative Clinic			
\square platelet rich plasma (PRP) ex. Harvest PRP			
\square autologous protein solutions (APS) ex. nStride			
\square dextrose prolotherapy			

REMEMBER: You are on a personal Journey, and while all these tools are available to you, they won't all make sense for your individual destination, the nature of your injury, and your personal finances.

All CIRCLES must be checked, which means trying **at** least one BOX from each section.

Did it help?	Did it last?

My Health Journey team at Group23 is:

Physician -

Physiotherapist -

Massage therapist -

Health coach -

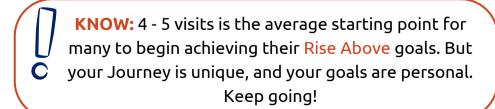

KNOW: We practice sports medicine differently and ask you to *take responsibility and actively participate* in this Health Journey. Our integrated clinic believes in **comprehensive care** and **provides everything you need** in your rehabilitation journey: physiotherapy, massage, health coaching, x-rays, injections, orthotics & bracing, and other elite treatment options.

At your first visit, let's discuss: ☐ assessment, diagnosis, and imaging (x-rays, MRI, ultrasounds)				
 setting SMART Rise Above goal(s) 				
 likely stops on your Patient Health Journey 				
☐ your best options from our Rise Above Navigation Toolkit				
 activity modifications 				
 rehabilitation options 				
 pain management 				
\square your homework (emails and at group23.ca/riseabove)				
At future visits, review with your health care team:				
□ pain levels				
Rise Above goals				
☐ bio-psycho-social barriers to recovery				
☐ create your Rise Above Road Map				
activity modifications				
Group23 rehabilitation program				
o physiotherapy - status				
massage - status health coaching discuss				
health coaching - discuss asthotics and (or bracing discuss)				
o orthotics and/or bracing - discuss				
 pain management your homework (emails and at group23.ca/riseabove) 				
your nomework (emails and ac group25.ca/riseabove)				
Are we there yet? Time to reevaluate or maintain:				
□ reevaluate				
 ensure every category in the Navigation Toolkit has been tried 				
 re-calibrate your Rise Above goals 				
repeat or additional diagnostic imaging as needed				
□ maintain				
 review necessary follow-up and rehabilitation maintenance 				

appointments
